

Center for Allied  
Health Education

Accreditation  
Information

### **Institutional Accreditation**

New York Methodist Hospital is institutionally accredited by the Accrediting Bureau of Health Education Schools (ABHES\*).

#### **Accrediting Bureau of Health Education Schools**

7777 Leesburg Pike, Suite 214 N

Falls Church, VA 22043

**Phone: 703-917-9503**

*\*ABHES is recognized as an accrediting agency by the United States Secretary of Education*

### **Mission Statements**

#### **New York Methodist Hospital**

The mission of New York Methodist Hospital, a member of the New York-Presbyterian Healthcare System, is to provide excellent health care services in a compassionate and humane manner to people who live and work in Brooklyn and its surrounding areas. In serving its community, the Hospital works to achieve these primary objectives:

To provide excellent health care services which are accessible to patients and physicians without regard to age, sex, race, creed, national origin or disability;

To serve as an educational and resource center for the training of physicians, nurses and health care professionals committed to the Brooklyn Community;

To provide an active ecumenical program of pastoral care and to conduct a clinical pastoral program;

To offer an environment which is responsive to new and changing technologies and management principles which will stimulate creative solutions for our patients, physicians and employees;

To engage in ongoing assessment of the health care needs of the community and to respond to those needs and

To work with members of the New York-Presbyterian Healthcare System and other health care institutions, physicians and community groups in jointly pursuing the delivery of quality health care services, medical education and clinical research.

#### **New York Methodist Hospital Center for Allied Health Education**

The New York Methodist Hospital Center for Allied Health Education is dedicated to providing superior training and education that will enable healthcare professionals to meet the needs of society. Healthcare professionals who are trained at the Center will:

- incorporate theoretical and clinical knowledge into allied health practices.
- contribute to the advancement of the allied health professions.
- think critically when dealing with healthcare problems.
- be lifelong learners with the ability to adapt to changes and developments in their profession in order to meet changing community needs, as well as to advance in their own careers.
- practice their professions with empathy and compassion.
- demonstrate high levels of administrative skill, honesty and integrity.

# BARTONE SCHOOL OF RADIOGRAPHY

## Accreditation & License Information

# OVERVIEW

## Mission

New York Methodist Hospital's Bartone School of Radiography has made a firm commitment to the education of students in the field of Radiography.

Our mission is the training of Radiographers who are skilled individuals, qualified by technical education, to provide services using various imaging modalities.

## Goals

The Bartone School of Radiography offers a program of radiologic technology education at the certificate level. To graduate, students must have:

- Completed all didactic objectives, including: passing all courses by achieving a minimum passing grade
- Completed all clinical objectives, including: clinical performance and competency, problem solving skills, critical thinking skills, communication skills, professional development and growth.

The program identifies benchmarks to provide a standard by which the effectiveness of the program in achieving its goals can be evaluated. An assessment plan is in place and can be obtained from the program director.

## Objectives

Upon graduation, students will receive a certificate of completion and are prepared to meet the requirements to sit for the written examination of the American Registry of Radiologic Technologists (ARRT) and to function as entry level Radiologic Technologists. Specifically, our objectives are to have our graduates perform effectively by:

- Applying knowledge of radiation protection for patients, self, and others
- Applying knowledge of anatomy, positioning and radiographic technique to accurately demonstrate anatomical structures on a radiograph
- Determining exposure factors to achieve optimum radiographic technique with a minimum of radiation exposure to patients
- Examining radiographs for the purpose of evaluating technique, positioning and other pertinent technical qualities
- Exercising discretion and judgment in the performance of medical imaging procedures
- Providing patient care essential to radiographic procedures
- Recognizing emergency patient conditions and initiating life saving treatment within their scope of practice

## **Accrediting Agency**

The Bartone School of Radiography is programmatically accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The program is required to comply with their standards, *STANDARDS FOR AN ACCREDITED EDUCATIONAL PROGRAM IN RADIOLOGIC SCIENCES*. If any violations occur, the program's policy is to investigate and correct the violation and ensure compliance with the standards in a timely fashion. To view a

## OVERVIEW

copy of the standards please visit the JRCERT website at [www.jrcert.org](http://www.jrcert.org). If a student feels that the program is not in compliance with the standards they can contact JRCERT at the address and phone number below:

**Joint Review Committee on Education  
In Radiologic Technology**  
20 N. Wacker Dr., Suite 2850  
Chicago, Illinois 60606-3182  
**312-704-5300**

### **Department of Health**

New York Methodist Hospital is approved by the New York State Department of Health to operate a training school for radiologic technologists.

**New York State Department of Health  
Bureau of Environmental Radiation Protection**  
547 River St. Rm 530  
Troy, New York 12180-2216

### **Important Addresses**

Radiologic Technologists**  
1255 Northland Drive  
St. Paul Mn 55120-1155

### **College Affiliations**

The New York Methodist Hospital Bartone School of Radiography has agreements in place with St. Francis College of Brooklyn, New York and Clarion University of Pennsylvania's Online College Programs which stipulate that graduates of the Bartone School of Radiography will receive credits towards a Bachelor's degree in radiologic or medical imaging sciences from these institutions.

# EMS Institute - Paramedic Program

## Accreditation & License Information

## OVERVIEW

program consists of didactic (lecture) instruction, practical skills training, clinical rotations and field internship experience.

Graduates of the New York Methodist Hospital Paramedic Program have found employment in private ambulance services, voluntary hospitals providing paramedic ambulances for the 911 system, and with FDNY.

### **Accrediting Agency**

The EMS Institute is programmatically accredited by the Commission on Accreditation for Allied Health Education Programs (CAAHEP). The school is required to comply with their standards, *Standards and Guidelines for the Accreditation of Educational Programs in the Emergency Medical Services Professions*. If any violations occur, the school's policy is to investigate and correct the violation and ensure compliance with the standards in a timely fashion. To view a copy of the standards please visit the CAAHEP website at [www.caahep.org](http://www.caahep.org). If a student feels that the school is not in compliance with the standards they can contact CAAHEP at the address and phone number below:

#### **Commission on Accreditation for Allied Health Education Programs**

1361 Park Street  
Clearwater, FL33756  
**727-210-2350**

### **Department of Health**

New York Methodist Hospital is approved by the New York State Department of Health to operate a training school for Emergency Medical Technician Paramedic. Students may bring course complaints to New York State DOH EMS Bureau:

#### **New York State Department of Health Bureau of Emergency Medical Services**

547 River St. Rm 530  
Troy, New York 12180-2216  
**518-402-0996**

### **Overview of the Program**

Understanding is the key to good clinical judgment. The paramedic program has four distinct components: didactic activities, practical skills labs, clinical rotations and field internships. This combination will provide the paramedic student with the cognitive ability, technical proficiency and clinical competency expected of entry-level paramedics. Successful completion of the program requires that the paramedic student demonstrate competence in all four areas.

The didactic component of the program takes the form of lectures or other learning activities, which are designed to impart the information the paramedic students' needs in order to understand the rationale behind the many pre-hospital treatments and skills. Lecturers are selected who have expertise in the topic area and have experience or extensive knowledge of pre-hospital care. Lectures offer the students the opportunity to ask questions and gain deeper understanding of the subject matter. It is assumed that all students will have already completed the reading assignment for a particular lecture. This preparation will allow the student to gain a deeper understanding of the topic.

The practical skills labs are designed to teach the paramedic student the advanced level skills required of an entry level paramedic and give the student the opportunity to perfect these techniques in a controlled environment.

# School of Diagnostic Medical Sonography

## Accreditation Information

# OVERVIEW

## Accrediting Agency

### **Programmatic Accreditation**

The School of Diagnostic Medical Sonography is programmatically accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The program is required to comply with their standards, *Standards and Guidelines for the Accreditation of Educational Programs in Diagnostic Medical Sonography*. If any violations occur, the program's policy is to investigate and correct the violation and ensure compliance with the standards in a timely fashion. To view a copy of the standards please visit the CAAHEP website at [www.caahep.org](http://www.caahep.org). If a student feels that the program is not in compliance with the standards they can contact CAAHEP at the address and phone number below:

## College Affiliations

The New York Methodist Hospital School of Diagnostic Medical has agreements in place with St. Francis College of Brooklyn, New York and Clarion University of Pennsylvania's Online College Programs which stipulate that graduates of the School of Diagnostic Medical Sonography will receive credits towards a Bachelor's degree in radiologic or medical imaging sciences from these institutions.

# School of Clinical Laboratory Science

## Accreditation Information

## OVERVIEW

- Demonstrate concern for and cooperation with others in the medical environment (e.g. include doctors, nurses, fellow workers, patients and their families).
- Recognize the need for continued educational growth within the profession as a means toward professional competence.
- Actively participate in educating and training new students and or other personnel. This includes but is not limited, to presenting lectures, writing examinations, writing evaluations and writing learning objectives.

### **Accrediting Agency**

The School of Clinical Laboratory Science is programmatically accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). The program is required to comply with their standards, *STANDARDS FOR AN ACCREDITED EDUCATIONAL PROGRAM FOR THE CLINICAL LABORATORY SCIENTIST / MEDICAL TECHNOLOGIST*. If any violations occur, the program's policy is to investigate and correct the violation and ensure compliance with the standards in a timely fashion. To view a copy of the standards please visit the NAACLS website at [www.naacls.org](http://www.naacls.org). They can also be reached at the address below.

### **College Affiliations**

The New York Methodist Hospital School of Clinical Laboratory Science has agreements in place with St. Francis College, Long Island University, SUNY Plattsburgh, Kean University, Mercy College and the College of Staten Island of the City University of New York which stipulate that upon graduation of the School of Clinical Laboratory Science student's will receive a Bachelor's Degree in Medical Technology from these institutions.

# School of Radiation Therapy

## Accreditation & License Information

# OVERVIEW

## Mission

New York Methodist Hospital's School of Radiation Therapy has made a firm commitment to the education of students in the field of Radiation Therapy.

Our mission is the training of radiation therapists who are skilled individuals, qualified by technical education, to provide treatment to radiation oncology patients.

## Goals

The School of Radiation Therapy offers a program of radiation therapy education at the certificate level. To graduate, students must have:

- Completed all didactic objectives, including: passing all courses by achieving a minimum passing grade
- Completed all clinical objectives, including: clinical competency, communicate effectively, use critical thinking and model professionalism

The program identifies benchmarks to provide a standard by which the effectiveness of the program in achieving its goals can be evaluated. An assessment plan is in place and can be obtained from the program director.

## Objectives

Upon graduation, students are prepared to meet the requirements to sit for the written examination of the American Registry of Radiologic Technologists (ARRT) and to function as entry level radiation therapists. Specifically, our objectives are to have our graduates perform effectively by:

- Applying knowledge of radiation protection for patients, self, and others
- Applying knowledge of anatomy, positioning and radiographic technique to accurately demonstrate anatomical structures on a radiograph
- Applying knowledge of anatomical structures and positioning to be able to reproduce the correct set up of patients
- Examining radiographs for the purpose of positioning and other pertinent technical qualities
- Exercising discretion and judgment in the performance of radiation treatments
- Providing patient care essential to radiation therapy procedures
- Recognizing emergency patient conditions and initiating life saving treatment within their scope of practice

## **Accrediting Agency**

The School of Radiation Therapy is programmatically accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The school is required to comply with their standards, *STANDARDS FOR AN ACCREDITED EDUCATIONAL PROGRAM IN RADIOLOGIC SCIENCES*. If any violations occur, the school's policy is to investigate and correct the violation and ensure compliance with the standards in a timely fashion. To view a copy of the standards please visit the JRCERT website at [www.jrcert.org](http://www.jrcert.org).
